TREES OF SECTOR 16, CHANDIGARH

Sector 16, situated in the heart of Chandigarh, exemplifies the city's visionary approach to **urban planning and green design**. Unlike unplanned urban growth, Chandigarh integrates trees as a core structural element—creating shaded avenues, ecological balance, and a distinct visual identity for each sector. Sector 16 is also home to the renowned **Zakir Hussain Rose Garden**, which further enriches the ecological and aesthetic landscape of the area, making it one of the greenest and most vibrant sectors of Chandigarh. The tree plantation in Sector 16 reflects a deliberate design philosophy which contributes significantly to Chandigarh's reputation as the “**City Beautiful.**” These are :

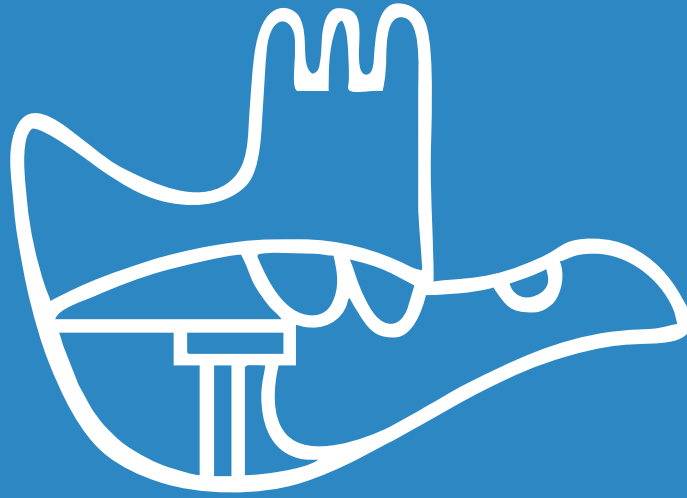

- **Avenue-based planting** with uniform species along roads
- **Dense canopy cover** for shade and cooling
- **Seasonal flowering cycles** for changing visual appeal
- **Support for biodiversity**, including birds and pollinators

Prominent Trees in Sect 16

- **Neem (*Azadirachta indica*)** – Known for air purification and medicinal value
- **Arjun (*Terminalia arjuna*)** – Strong, resilient roadside tree
- **Jamun (*Syzygium cumini*)** – Dense foliage with seasonal fruit
- **Kusum (*Schleichera oleosa*)** – Notable for seasonal leaf colour changes
- **Amaltas (*Cassia fistula*)** – Striking golden blooms in summer
- **Gulmohar (*Delonix regia*)** – Vibrant red canopy
- **Jacaranda** – Soft purple-blue blossoms
- **Kachnar (*Bauhinia variegata*)** – Elegant pink and white flowers
- **Ashoka (*Polyalthia longifolia*)** – Tall, symmetrical and commonly planted
- **Maulsari (*Mimusops elengi*)** – Fragrant and evergreen
- **Bottle Brush (*Callistemon*)** – Distinctive red brush-like flowers
